SUMMARY

Computer Science Engineering graduate with practical experience in Laravel, PHP, and JavaScript, specializing in building scalable, responsive, and dynamic web applications. Strong foundation in data structures, algorithms, and analytical problem-solving. Actively strengthening backend expertise with a focus on database design, RESTful APIs, and server-side architecture, aiming to transition into a backend engineering role.

EXPERIENCE

Full Stack Developer

Global Matrix Solution   09/2025 - Present,Meerut, UP, India

·Developed and maintained dynamic, full-stack web applications using Laravel (PHP), JavaScript, and WordPress for diverse client requirements.

·Skills360 – Built a job-seeking and job-posting platform in Laravel with an intuitive admin panel, user authentication, AI-powered job matching, and a resume builder to enhance user engagement.

·Medi BillSuite – Developed a Laravel-based pharmaceutical distribution management system with batch-wise stock tracking, GST billing, sales/purchase modules, supplier claim management, and role-based access control for streamlined operations.

·InvoicePro – Developed a Laravel-based invoicing platform with client management, invoice generation, PDF export, expense tracking, payment recording, and financial reporting dashboard.

·Ensured cross-browser compatibility, performance optimization, and adherence to SEO best practices across all deployed projects.

PROJECT

Skills360.ai– Job-Seeking and Job-Posting Platform

skills360.ai/

·Developed a full-stack web platform in Laravel connecting jobseekers and employers through AI-powered job matching.

·Built dedicated dashboards for Admin, Employer, and Jobseeker roles to manage profiles, postings, and applications.

·Integrated resume builder, NOC code mapping, and preferred location filters for enhanced job recommendations.

·Implemented a responsive, user-friendly interface ensuring smooth navigation and optimized performance.

·Followed SEO best practices and optimized backend queries for improved speed and scalability.

Medi BillSuite – Pharmaceutical Distribution Management System

proseoaudittool.com/medi

·Built a Laravel-based inventory and billing system for pharma distributors with GST-compliant invoicing.

·Developed batch-wise stock tracking with expiry management, HSN codes, and breakage handling.

·Implemented sales, purchase, quotation, and supplier claim modules with comprehensive reporting.

·Designed role-based access control with granular permissions for secure operations.
